

 **REQUEST WITH RESOLUTION FOR INFORMATION HANDLING PROBLEMS
THROUGH UNSECURED COMMUNICATIONS INVOLVED WITH FINANCIAL
REQUEST FROM FIDUCIARY MANAGING THE PERSONAL SAVINGS OF
JASON C. DEDRICK©:**

This is a private and confidential communication for financial issues regarding the health and well being of Jason Dedrick©. This lengthy and detailed account of request and reasons for request is a reciprocation of all recent and failed attempts to communicate with fiduciary in attempts to gather funds from personal savings for investment strategies and elements required to continue work involved in efforts to develop the "Art in Space Foundation©," event production to express the following idea; right of the people peacefully to assemble, and to petition the government for a redress of grievances. This is a document for future litigation against the Federal V.A. in the event resolution is not found to complaints and issues realized in this document.

The primary purpose of this communication is;

To showcase the "**Strategic Business Plan Threat**," across many financial platforms due to the congressionally appointed, federally instructed, and state managed fiduciary SHARON LINDLEY for **reason's assessed** by V.A. psychiatrist and field examiners due to "partial review," and mental health evaluation of the business proposal for the "**Art in Space Foundation©**." The congressionally appointed, federally instructed, and state managed fiduciary appointee and or **agency** involved in Jason Dedrick's© personal financial decisions with personal savings account currently threaten lost revenue and future value earned from request involved in this and previous dated request on file with the Office of Naval Intelligence. These financial request rely on **autonomous control of personal finances** due to complex purchasing and decision making that "**does**," rely solely on the immediacy of the "**requests**" from personal savings.

These financial requests **serve** to peacefully assemble investor's on a broad spectrum of multi-level collaborations **not realized** by mental health examiners of the V.A.. These request for approval of funds and or denial at any capacity are not within the limits of the powers vested to the appointee due to the circumstances involved in this particular instance. They therefore will serve to create actuary tables for lost revenue for investment opportunities relating to personal business strategies. These dynamic financial request range in part from; investments in "**Core Elements**" of personal business plans for the "**Art in Space Foundation©**," the development of trade relations through establishing financial responsibly with **potential** future business affiliates in the **Whatcom County** economic system; this including a "Strategic Communication," that is centered on development of trade relations through continued financial relationships. These financial request range from elements derived from engaging in strategies to lay ground work efforts in competitive start up companies in the State of Washington through the "**Art in Space Foundation©**."

These requests are in part for reassessment, by Congressionally appointed mental health physicians and for federally paid private mental health assessment of mental health managed by the **D.O.D.**, reflective of components of "Business Strategies," involved in the "Art in Space Foundation©," acknowledged as reasons for medication of Olanzapine by U.S.

ARMY officers not given proper training to assess elements of the "Art in Space Foundation©." business proposal. This medication was issued as per issues involved with the visual and symbolic marketing functions involving a futuristic horse drawn carriage developed by Jason Dedrick© to visually showcase the public paradox in public space policy; if we have not returned to the Moon then we should just build futuristic horse drawn carriages and sell high tech gadgets.

It is therefore recommended that the Office of Space Commercialization the principle office for space commercialization within the Department of Commerce along with the Department of the NAVY assess the value of potential lost revenue from produce of intelligent business models derivative from the business plans for the "Art in Space Foundation©," and that are dynamically linked to information securities potentials in **all aspects of future securities involved with information dynamics and space exploration for asset bases in the travel and communication industry; and potentially "National Energy Policy, "as will be discovered through the initiated investigation by DEPARTMENT OF COMMERCE INVESTIGATION with NAVAL INVESTIGATIVE POWERS in light of request (Twelve and Eighteen) Who through investigation may reference these types information dynamics and may be leased for development.** While attending the Naval Academy in prospect of continued Naval service rendered.

The software modeling required as a **"Core Element,"** of the debentured web contract is intrinsic in the development of software intelligence for information securities modeling that may with licensing fees benefit Jason Dedrick© while attending the U.S. Naval Academy. This due to dynamic strategies involved in "interactive purchasing," that engages many future oriented audiences and relate to strategic communication principles therein aligned with "Strategic Business Plans," of the **"Art in Space Foundation©."**

The secondary purpose of this communication is;

to inform Jason Dedrick's© estate manager and the Federal V.A. that the appointment of a fiduciary in the case of Jason Dedrick© threatens the continued "work," of content produce benefiting the State of Washington and affiliated parties through investigation and the state's private business operations for future "securities," involved in privatized space industries.

Information content issues involved in all financial request from fiduciary.

The following are a series of request for funds in Jason Dedrick's© personal saving's account that deal with **"information content issues,"** and are reflective of such request that are disruptive to investment potentials involved in current business strategies revolving around **"Resource Acquisition," or "Resource Acquisition Behavior."**

The Issues involved in personal request through my verbal, visual or "inferred," communications with my fiduciary that have "threatened," the success and viability of a sale of "Strategic Business Plans," engaging in competitive markets here in Washington State are listed below.

The release by way of auditory or visual **information** that relates to any of the following issues with request and information content.

A) Any **information** released that threatens business plans involving state centered or international business planners or planning dealing with privatized space issues and international trade development directly or indirectly prospected by the Department of Defense.

B) Any **information** that may be stored in a non-secured data base shared by the Governor's Office, or located in buildings that are not secured with minimum "secret level," state managed security protocol.

1) Any policy that is not reflective of such "**Information Handling**," including secured line for facsimile, e-mail, or request form transmitted by any format; including "**non-licensed**," information handlers without granted or inferred "**Power of Attorney**," who provide service as liaison to V.A. for efforts involved in functional communications for; FOOD, WATER, AND HEALTH.

C) Any **information** that may be requisitioned in a **internal** V.A. assessment of Jason Detrick's© disability that is transported by field investigator not in a sealed and protected manner or is not stored according to established guidelines for information reflective of this request.

1) Any **information** that may be requisitioned in a **external** assessment of disability that is transported by field investigator not in a sealed and protected manner stored according to established guidelines. This notwithstanding the NAVAL INTELLIGENCE INVESTIGATION for issues relating to the "**continued**," service for the U.S. Government through continued education at the Naval Academy.

D) Any **information** pertaining to contacts or "**Future Communication Recipients***," involved in private production efforts for implementation or planning phase's of the "**Art in Space Foundation**©."

1) Including information regarding trips or information involved in trip planning to send information to those involved in the potential multi-level, international event collaborations.

2) Including information dealing with trips for "educational," and or "political research," for new media productions as recently undergone by Jason Detrick© in the Olympia, WA. based production efforts of Media Island© and the DNC2RNC production not planned or managed by Jason Detrick©.

a) Trip expenses may not be questioned in relationship to business planning and maintenance of business communications.

b) Equipment rental or purchase request, involved with trip expenses required to maintain communication in lou of production may "not," be questioned as all; verbal, written, or e-mailed communications in non-secured private, public or government owned; buildings, homes, libraries, **Federally Funded Work Source Centers**, or yet named point of originating unsecured communication do threaten successful business operations here in Washington State. All communications with request from state managed servers may threaten competitive business planning and right to privacy in business planning communications.

D) Any **information**, resulting from personal opinions or judgments made by a V.A. field examiner or V.A. psychologist that threatens the veracity or viability of state centered or non-state centered business planners or business plans that henceforth; **will** collaborate investors in international markets that **will** benefit any "one," of the following companies: Boeing Aerospace, "**Vulcan, Inc**," or even Space Adventures Ltd.

1. These include opinions made by; attorney's, investigators, examiners, or even psychologist, not given proper resources to understand the competitive nature of privatized space and event promotions that engage large international market shares of science fiction audience-those primarily vested in a Star Trek audience and marketing conventions that use linguistic marketing naming such as Vulcan to compete with Paramount Pictures and even in some cases use visual symbolic language and geographical linguist marketing to represent social paradoxes in public space policy. This last comment may only be illustrated to the Senior Financial Analyst of; Boeing Aerospace, **Vulcan, Inc**, and Space Adeventures ltd.

2. All financial data collected, through Jason Detrick© by the V.A. state or federal, from first and second year long "potential" investigations annually reprised from FEB,14, 2003, 2004, 2005, into the personal financial spending behavior and business affairs of Jason Detrick© along with business practices in the state of Washington may have threatened the business model for the "Art in Space Foundation©," or threatened planning of XXXXXXXXXXXXXXXX.

REQUESTS: A WRITTEN RESPONSE TO REQUEST ALL REQUEST INCLUDING 12 and 18 IS TO BE RESPONDED TO BY SHARON LINDLEY IN RELATION FOR REQUEST OF FUNDS FROM PERSONAL SAVINGS AND ALSO TO BE VERIFIED BY CAROL SEAMAN SMITH.

Dear Sharon Lindley; The following issues regarding my estate and plans for immediate financial needs are listed below. Each special issue is followed by business planning that engages the state of Washington commerce for future industries in privatized space. Issues are listed in alpha/numeric format. Each request is precluded with the necessary statement in assessment of each request: **I respectfully request a hand written response for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and**

viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings. For minimum response requirements please review standard response sheet in this request. -it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive -this request is for:

All request made will be responded to in "secure," fashion. If this cannot be done then a change of executor of estate to Jason Detrick© must be made in a absolute and timely fashion.

(Note: It is necessary to review and read the entire contents of this fax with cover page. It is also necessary to understand that I will fax my business plans to each of the listed communities in reflection of my request and the negligence of your operation dealing with your congressional appointment of power over my award for disabilities incurred in the service of my country for reasons not managed by efficient space policy in the nuclear submarine fleet or with competent physicians. The further faxed transmissions of my business plans with request involved in my full financial plan; will require a fax machine that is capable of secured communications with my fiduciary. Otherwise, communications will not be possible other than in person; or through "non-licensed," and potentially liable information handler of verbal request for; Food, Water and Health. Therefore vehicle request in the following request is to be understood and complied with. Further issues involving content conscription through continued investigation powers of the V.A.. This power of the investigator and person approving financial decisions prospecting resources for peaceful progress through space sciences is obviously is not acting in my best interest and therefore must be ended.

Request One:

Previous request was denied by both Sharon Lindley and Carol Seaman Smith as per rude conversation, through unsecured communications, in which she intentionally hung up on me with omittance of accountability.

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: Vehicle from and "trade relationship development, " with David James, application developer with Affordable Information in Bellingham, Wa.

1) The decision for this vehicle purchase is based in three levels of decision modality;

a) **Psychological Decision Making Model-** I owned a Landcruiser before I joined the NAVY and it was a good feeling. A feeling that made me work efficiently. It empowers my ego and makes me feel capable of re-integration into society. A 4x4 is good in the snow. When it snows I feel happy, I feel more happy when it snows and I have a 4X4. The vehicle will help me return to the mental "state," that I once was at before I was mentally assassinated by the U.S. Government and it's affiliated corporate agendas intended to stop my Peace in Space production through the "Art in Space Foundation©," business model seeking to identify investment securities through on-line work force harvesting information for goal based space policy applications.

b) **Logistical/Financial Decision Making Model -** The 1978 Landcruiser is a viable vehicle for where I live. With out a 4X4 I will not be able to pull into my driveway during snow time at Mount Baker. The vehicle is very special car. It is a 1978 Lancruiser FJ40, 90k original miles, New Tires,/Brakes, Warn Winch, storage for last ten years, runs great, has a soft top and half top. I feel it is a good decision because I know how to fix and operate the vehicle as I used to own one and that will save me much money in the future if it breaks down. The car has set in a driveway for ten years and is in tip-top shape. I have driven it and it is in mint condition. The vehicle has 90k miles on it and it is able of continued operation for another ten years with minimum care. The vehicle is suited for the weather conditions of the area and is a steal for the price. The car could be sold for \$10,000 with no problem. The owner has potentially agreed to save the car for me with an initial down payment based on private communications that require your offices interference and or assistance.

1) The initial plan is for a \$2,800 down payment and \$400.00 a month for six months.

2) The \$400.00 a month would come by lowering my weekly allowance to \$125.00.

2.1) This deal may only be capable in reflection of my communicating of part

of my proprietary business plans that engage a trade relation scenario with the President and a application developer of Affordable Information located at 901 Harris Avenue, Bellingham Wa. 98225. Any other potential financial exchanges made in trade development attempts are not to be communicated with or in connection with potential "private business planner," or "business planning parties."

2.2) DENIED REQUEST; that threatened continued responsible financial communications not within my capability in relationship with Issues involved in this communication. To continue with this important relationship I would need a letter mailed to the fax number attention David James; 360-676-1551 stating the role of the fiduciary unit and the approval process for this request. The letter must state that a \$400.00 payment can be made monthly, for six months from the Washington State Department of Veteran's Affairs to the attention of David James. **Please immediately respond to David James about this request; as his confidence in me that could limit future business practices has nearly ended in light of the incompetence and irresponsible behavior of the State of Washington V.A. and those federally appointed investigators of the Federal V.A.**

b.1) Issues regarding 4X4 purchase; I would alert you to where I might be living this snow season but that is strategic business information regarding the possible plans to return to Colorado and work from there; but it is a equally snowy place there...I know as I have lived there and endured many snow seasons.

c) **Strategic Business Planning Decision Making Model-** Trade relation development that allows a "financial," review of business plans for the application game module used in connection with my Art in Space Foundation© paid gaming model that manipulates and uses _____ to have a potential investment party through establishing responsible communication. This requiring your office to respond to David James in a timely manner and appropriate funds as soon as possible and with the expedited attitude of any competitive business model. NOTE: My funds will not be manipulated in attempts to prevent me from maintaining a competitive approach to privatized space market through capturing science fiction audience.

A.1) Due to the issues present in **request one** I request a change of fiduciary on the merit of the following statements: To accomplish this multi-level decision making model in vehicle purchase that **is not** within "Right to Privacy in Business Planning Communications," or the limitations and powers of the V.A. state or federal fiduciary unit, I request that I, Jason Detrick©, be re-named executer of my own financial affairs until there is a problem. To help establish this, please request the renter's agreement with property owner Melvin Oleson, a futurist for Boeing Aerospace and Lacey Oleson a student a Western Washington during the months of Sept-May 2003-2004 that show records of a financially capable person.

Due to **Information handling** that threatens strategic business plans and potentially Washington State Business it is suggested that a reassessment of fiduciary functions dealing with questioning personal use of money be either stopped or finances return to the control of Jason Detrick© as not to complicate messy litigation with information handling of proprietary business plans of Jason Detrick© on the state level. Especially any issues arising out of the Work Source Center content fraud for XXXXXXXXXX, XXXXXX©.

Request Two:

(Previous request was denied by both Sharon Lindley and Carol Seaman Smith as per rude conversation, through unsecured communications, in which she intentionally hung up on me with ommitance of accountability.)

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: Birthday money for female lover met on Feb, 14th 2003 that was initially requested in March as not to add to my already failing relationship due to recent tribulations and trials from financial issues resulting in no weekly allowances and last week's line of questioning that even once scolded my girl friend.

1) A "necklace," from tiffanies or iPOD.

a) **CHANGED** since last request; iPOD though will also be used for personal business plans XXXX, my girlfriend may use it to help edit my story of the abuse that was caused by mental health legislation and the content conscription of the plans for the Art in Space Foundation© through state legislation and other...not to mention the false medication of 10mg a day of Olanzapine for business content involved and

reviewed by Capt. Christine Dailey in the business plans for the "Art in Space Foundation©," that has without further financial assessment by the Office of Space Commercialization through NAVAL investigation permanently altered neuro-physiology with irreparable damage due to limitation in financial decision making capability further interfering with psychological healing.

2) A "matching necklace," from tiffanies for her daughter Melanie whom I missed her birthday due to reason's attributable to the breakdown in relationship due to communication problems caused by Fiduciary involvement.

Request Three:

She denied me of birthday money from my own savings!!!!!!!

(Previous request was denied by both Sharon Lindley and Carol Seaman Smith as per rude conversation, through unsecured communications, in which she intentionally hung up on me with omittance of accountability.)

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: Personal birthday money or that same money from my own savings to invest into a reliable vehicle and business plans like the one listed in request one.

1) I would like to go shopping for clothes and other things or add to my car down payment \$300.00 and continued trade relationship development.

2) I request 3,200 from personal savings as I would like to deal with potential software engineer by providing him with a new, "Strategic Business Proposal." This would in the future require \$23,000,000.00 to back the seat for an artist in space to add asset value to the unique part of business plans that have been threatened by the congressional appointee of Federal V.A., and the fiduciary unit of the Washington State Work Source Center. This money could be used in order to hire part time people to help who can operate at the mental level I did before I was wrongfully medicated on Olanzapine. Or, it requires money for litigation against the U.S. Government for deficient policy management of space Science interested people in the Nuclear Submarine as Tactical Nuclear Weapons Operators or Target Motion Analyst who's content was conscripted by U.S. National Security Protocol in C.S.U. class never signed up for; yet never reported to the Office of Personnel Management in "Top Secret," security investigation.

a) I request money for legal assistance and content insurance assessment in determining the value of proposal and issues related in this communication.

a.1) To invest in research for the value of proposal from the highest order of magnitude, I request that I be allowed the privilege of a spontaneous decision making capability due to circumstances involved in business investments: This may include investments of all money in savings into Vulcan inc. after Disney Studios is offered the next Comcast bid of 36-39 billion Dollars. Or after California investors decide to separate resources to a East Disney and West Disney-or possibly after Roy Disney writes a letter to CEO of Vulcan Inc., Paul Allen stating he would like to endorse the Sci-Fi Museum and the innovation of Vulcan Inc. as what Disney used to be like before the Orlando , and N.A.S.A. began . Or maybe investing in Disney after N.A.S.A. agrees to create a special launch agreement for the seat of an Artist in Space that will be a Disney managed launch at the Cape and co-managed in special co-production with the "Art in Space Foundation©," "THE MAR'S SOCIETY," "Vulcan Inc." "Roy Disney," "Space Adventures Ltd.," "Marketing department for the Town of Vulcan, Alberta" "Vancouver Film School," and "The Bellingham Independent Media Studios." This seat might allow the full scale production and collaboration with Steve Jobs for a shared "Apple Theme Park," at Disneyland California dealing with the role of teacher's in space and innovation through on-line paid gaming through business plans of the "Art in Space Foundation©." Or maybe, I could go on an business investment trip to the U.N. Office for Outer Space Affairs in Vienna to research my communications with them in regards to the Work Source Center content observation policy in Washington and my business plans for the "Art in Space Foundation©."

Other spontaneous decisions, requiring money that might allow me to gain education from the U.S. Government in Vancouver, at the Vancouver Film School for production efforts involved in the "Art in Space Foundation©" potentially with Vulcan Inc. are _____®.
That is a scary symbol if you know what it means and why it is a last option; but it can be a dangerous and a "Paramount," issue. I hope also one day for funds to visit U.S. Naval Space Command to discuss border-less warfare models of the U.S. Space Command and why it is more important for _____, in order to maintain "Safe operating Space Systems," providers like Disney in a future of privatized space exploration. Maybe one day Paul G. Allen can rent the landing and launch facilities from N.A.S.A. as a "SOSS," as long as the tourism industry in California and Orlando is maintained by "Strategic Business Plans©," and "Information share employees," for Boeing, Disney, and Apple. Hopefully, though the regulations on the travel industry are loosened to accommodate "SOSS," providers. Maybe I would like money to invest in Nintendo if this scenario occurred: if Comcast gains control of needed DISNEY information and resources dealing with information securities for a I.S.E.C. that _____, will be used as a launch facility in the development of a central policy model for "SOSS," providers in the U.S. privatized space program through the "Artist in Space Production?" If that happened and Vancouver or China opened up a aggressive manufacturing program for the Disney/Apple/ASF©/Vulcan(?)/Boeing/ Micro modular robot manufacturing for Sony Playstation based applications or Nintendo® based application.

Request Four:

(Previous request was denied by both Sharon Lindley and Carol Seaman Smith as per rude conversation, through unsecured communications, in which she intentionally hung up on me with omittance of accountability.)

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/ Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: business research dollars for a international non-profit company that is located in XXXXXXXXXX XXXXXX®

1) \$XXX.XX this request will be made in a secured and private office managed by the V.A.. If these conditions can not be met by the federal or state V.A. suiting the requirements of content involved in this communication or yet known content then all finances must immediately and without postponement be returned to the management of funds by Jason C. Dedrick©. A quick and timely response is required that does not infringe on business planning. This element of request will be forwarded to those appropriate individuals working with the legal department of the V.A. for protection of the V.A.'s interest in "this," potential investigation/ case.

Request Five:

Previous request was denied by both Sharon Lindley and Carol Seaman Smith as per rude conversation, through unsecured communications, in which she intentionally hung up on me with omittance of accountability.

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/ Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way

to survive-this request is for: Personal expenses that have not been "repaid," in light of request;

1) Safety deposit box located at the US BANK in "Redmond," or Microsoft Valley® \$66.00.

2) \$200.00 check for initial pro-rated week of living expenses to Hallie Richards personal money order receipt from Bank of America; 1750246182. Due to this negligence in management of living expenses I was forced to spend personal saving from federal tax return in the sum of \$200.00 that would currently be used in efforts to help continue communications for strategies involved in (**Request 12**)

Request Six:

(Previous request was denied by both Sharon Lindley and Carol Seaman Smith as per rude conversation, through unsecured communications, in which she intentionally hung up on me with omittance of accountability.)

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/ Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: faxes and other research for "Future Communication Recipients*," relating to personal business data for "**Strategic Business Planning.**"

1) Due to recent expenses in faxes and other necessities I require money for food and water from my personal savings, and money for faxes in relationship to my developing case against the United States Department of Veteran's Affairs for negligence in communication involved in the role of the fiduciary as per policy mandated by Congress that have threatened and **CONTINUE** to threaten the information securities of; "Comcast Communication," ----- "Disney Studios," "Vulcan Inc.," "Boeing Aerospace," "Apple Computers," "Microsoft®," "Nintendo," "Lucas Studios," while also infringing on the legitimacy on the marketable and intangible tax deduction of the trademark name and name reputation, in the event of sale or merger for the Board of Trustees and shareholders of Vancouver Film School, and possibly Disney Studios in reflection of Vancouver Film School's signed acceptance, and assessment of me, Jason Courtney Dedrick®, on the merit of the Interactivesciencefictionnovel/business-plan for the "Art in Space Foundation®." This made light in the potential litigation for problems arising from the ill managed, "Top Secret," security investigation by the office of personal management not reflecting the involvement of the U.S. Space Command, and content conscription through observation prior enlistment; this potential litigation will be made possible through the "Feasibility Study," of Jason Dedrick's© business plans by Senior Investment Analyst Carol Parnel of Tele-Film Canada, who reviewed the proposal for the "Art in Space Foundation®." This study will focus on international markets infringed on by this potential case that is threatening future value of annuities based on "trademark, logo, and *name reputation*," for merger through assessment of future assets by Disney Studios and the Vancouver Film School. This financial evaluation of the "Art in Space Foundation®," business plans may also be evaluated by the CEO of Vulcan Ltd. and Eric Anderson of Space Adventures to insure proper assessment. See case *DHL CORPORATION AND SUBSIDIARIES, Petitioner v. COMMISSIONER OF INTERNAL REVENUE, RESPONDENT. TAX ct. Dkt. No 19570-95. Docket No. 26103-95 UNITED STATES TAX COURT FILED DECEMBER 30, 1998 T.C. Memo 1998-461; 1998 Ct. Memo 461; 76 T.C.M. (CCH) 1122; T.C.M. (RIA) 98461.*

Request Seven:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/ Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: the required expenses involved in communicating, including faxes, with Senator Ted Kennedy to be appropriated as soon as possible this including the expenses for; mailing, file retrieval of "certified letter," mailed to Senator's office on February, 09 XXXX transfer of a power of

attorney FOR CASE FILES OF BOTH MILITARY AND V.A. MENTAL HEALTH RECORDS INCLUDING ALL FILES MANAGED BY THE V.A. to the Office of Senator Ted Kennedy.

1) This to insure that validation of mental health can be assessed against complex complaints against national security measure and muddled "Top Secret Security," investigation that through congressional powers currently threatens my personal business strategies involved in **Request Twelve and Eighteen.**

Request Eight:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: to visit board members of Comcast on November 3rd in order to review the litigation process for the case of "Comcast," "Microsoft®," "Kinko's," "Apple Computers," "Lucas Studios," "Disney; *without George Mitchell****," "Vulcan Inc." "Space Adventures Ltd." and "Boeing Aerospace," "Lucas Studios," "Nintendo," "The Estate of Roy Disney," to verses the Department of Veteran's Affairs for negligence in proprietary data handling relating to business plans created by Jason Dedrick©. The same business plans that engage part time employee of democratically maintained and group owned, potential 50,000 member part time company MP-MAR'S© Mar's Property and Management Asset Resource Systems; Current member's are two, one residing in Colorado and one In Washington also to help continue communications for strategies involved in (**Request 12**)

Request Nine:

(Caution - Response in writing must insure the reason for approval or denial is not infringing on any international policies dealing with "U.S. National Security," property laws involving information that relates to formed business companies with "Pipeline," connections.)

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: to visit the Vancouver Film School-Board of Trustees to discuss the evaluation of the threat to future value of their name reputation in reflection of the current disposition of potential litigation outcomes of The Vancouver Film School verses the Department of Veteran's Affairs.

1) Train fare-

2) One night stay at hotel-

3) One full ride scholarship and U.S. investment into my ass, appointed by Congress, for four years at the Vancouver Film School or the U.S. Naval Academy for international law studies revolving around entertainment issues in space policy that disrupt these types of communications; including all finances returned to the control of Jason Dedrick© Immediately for the perpetuity of my service to the U.S. flag.

Request Ten:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the

Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: for a 16 mm video camera from my own personal savings in order to begin film career.

1) I request money to rent out a building in order to film the fifteen minute video to be released at the end of Star Wars Episode III to collaborate the base group of MP-MARS© by video taping the listed Board members of major companies who have agreed to be involved in the Debentured Web-contract through donating 58 hours over five years for information harvesting in issues relating to future space industries in entertainment industry and also to continue communications for strategies involved in **(Request 12)**

Request Eleven:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: Office supplies to continue communications for strategies involved in **(Request 12)** A fax machine with secured communications through my fiduciary in order to maintain private communications in financial request regarding strategic business plans.

Request Twelve:

(Important note-This request will be responded to in writing, as every second that this is not responded to, valuable future goods not received, due to fiduciary management appointed by congress directly resulting from mental health legislation for issues arising from The U.S. Space Command's infringement upon my right to have a fair assessment of security clearance for "Top Secret," clearance while defending my country, honorably, in the U.S. Nuclear Submarine Fleet as a Tactical Nuclear Weapon's operator by infringing on private business plans through observation and recordings prior to enlistment by "NOT," reporting, as per protocol, the future liability of "content conscription," and or "information quartering," in a class project at C.S.U. (Colorado State University) assigned* by Dr. Eligar Sadeh and potentially directed by x.x.x.x., focused on implementation requirements for a successful Mission to Mar's; this lost future value of assets benefiting the community for MP-MARS© and the "Art in Space Foundation©," will be calculable in litigation from a on-line paid gaming industry that is currently working toward similar investment strategies in information securities; especially, if this communication has threatened said industry.)**

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: investment dollars into the purchase of server and a plane flight to a research station in Antarctica to investigate the business legitimacy of plans involved in the Debentured Web-Contract developed by Jason Dedrick© dealing with the Outer Space Treaty of 1967 and why it was derived from the Antarctic Treaty; this to establish my first (remote) company home base by renting a place to store my personal information with my own server.

A) I request **maximum** allowable finances from personal savings **immediately** and on the the **first day** of the following month; the **exact moment** that my next months finances arrive in the care of my estate manager and the **delay of disbursement**, in order to **continue** efforts involved in peaceful assembly. I request that all weekly allowances, except a bare *bones amount* and savings be forwarded to my personal management for personal plans and investment strategies for information servers in Antarctica and Washington that correlate

with the business plans for the "Art in Space Foundation©," debentured web-contract element for issues revolving around multi level collaborative marketing for trade rings in a science fiction based community for target audience in co-produced event production with information strategies based from property law derived from the Outer Space Treaty of 1967 and the Antarctica Treaty. NOTE: for the efforts required in applying mathematical models for investment strategies involved in total comprehension software developed by the Office of Space Commercialization for understanding this request to initiate plans centered on the first amendment for the "Art in Space Foundation©," please be sure to apply this total function to the **base** driving force of assets by way of information securities in efforts to asses value of off world property through the United Nations Office of Outer Space Affairs in concert with the debentured web-contract model for "on-line paid gaming; or as Microsoft x-box **might call it** through **Vancouver Film School** the "streaming gaming." If this is so, and relates to the once presented business plans for acceptance to the Vancouver Film School for the "Art in Space Foundation©" and the potential for cross platform employment in the position of CEO from Microsoft to Vulcan Inc. to potentially derivative or not derivative company elements of the "Art in Space Foundation," occurs as is part of the dynamic structure of the business model for the "Art in Space Foundation©," it would be a conceivable international threat to keep Microsoft® operating with in the State of Washington; therefore it is a suggestion of this researcher to include the need for an ocean platform and remote information management system located in Antarctica possibly managed by **T-MOBILE** for dynamic studies not limiting the powers of Microsoft® but allowing N.A.S.A. involvement with **Vulcan Inc.** to asses the considerations of the "Safe Operating Space Systems," dynamic to be corroborated with; Disney, the U.S. NAVY, Office of the Secretary of the Navy for the five seats to outer space during five years. This measure of close observation and information development procedures, could in future times greatly benefit the "Safe Operating Space Systems," element of privatized space for entertainment considerations that engage; multi-platform, multi-disciplinary, multi-polar attitudes in on-line or broadcast paid gaming through debentured web-contract model developed by Jason Dedrick©. Parts of these developments occurred during NAVAL training for NUCLEAR studies in classrooms where "Psychological Warfare," manuals were digested; for continued training in the GOVERNMENT APPROVED, BOEING AEROSPACE "National Security Strategies," for privatized space; and therefore should be reviewed should ownership issues with "**VULCAN Ltd.**," Microsoft X-BOX or VANCOUVER FILM SCHOOL arise.

B) This investment strategy is to be reprised on month to month basis with a CFO and as such money requested will be isolated in priority assessment behavior becoming a financial estate manager who **does not** threaten future investments of clients be denying request not understood. If request are not understood then they are to assessed by those who understand them in this case; I request that you forward this communication to the Secretary of the Navy via field investigator for any concerns that reflect continued liability on the part of the Federal V.A., and any committee that might infringe on personal private business strategies involved in privatized space efforts through an entertainment complex developed by business models of the "Art in Space Foundation,©" and counter assessed in value by Vulcan Capital. A company managed and owned by former Microsoft CEO Paul G. Allen.

Request Thirteen:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/ Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: research in order to find and or pay for temporary services of a CFO for matters relating to investment strategies involved in this communication and business plans of the, "Art in Space Foundation's©," debentured web-contract; this also to help continue communications for strategies involved in **(Request twelve and eighteen)**

Request Fourteen:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/ Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and

withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: I respectfully request \$2,800.00 from personal savings to travel to Germany, with council from a V.A. liaison working with the United Nations Office in Vienna to help manage visit with GMX information consultants in matters regarding personal file log for deleted communications that hold the **business planners** of the state of Washington Liable, in investigation practices approved by **Current** Congress through international treaties not threatening enough to detour involvement in investment strategies of Antarctic Servers for safe information handling as requested in requests. This visit also to seek education in entertainment industries dealing with space sciences and behaviors becoming of a **congress** not threatening competitive business plans for privatize space in issues revolving around multi level collaborative marketing for trade rings in a science fiction based community for target audience in co-produced event production with information strategies based in Antarctica and with great hope to be derived from American Democratic processes for horizontal information share and also to continue communications for strategies involved in (Request 12 and 18)

Request Fifteen:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: invest in USA networks, Time Warner- AOL and Kinko's/ Fed-ex as my non-disclosure agreement **signed** by V.A. Doctor Margaret Bone on 4/12/2004, for business plans of the "Art in Space Foundation©," has been violated by the terms of this forced communication for monetary request from **personal savings** this including the manner of "non-secured," transfer of documents for this approval, as elements of the; **Psychological decision making model, Financial/logistical decision making model and Strategic business planning request making process for the continued efforts in dynamic purchases that are threatened by the information gathering role of the V.A. field investigator reflecting congressional interference and tampering in strategic business planning for issues involved in privatized space through the business model development for an entertainment complex in space such as a Disneyland like establishment on the Moon by 2032.**

Request Sixteen:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for:

Finances required in the development of a start up business for the "Art in Space Foundation©."

- 1) **\$500.00** from personal savings for a secured credit card for establishing credit.
- 2) **\$22.00** from personal savings for a bus ticket to visit with the Secretary of State; to discuss issues revolving around denial of REQUEST #1 part 2.2.
- 3) **\$22.00** from personal savings for a bus ticket to visit with the Governor of the State; to discuss issues revolving around denial of REQUEST #1 part 2.2.
- 4) **\$22.00** from personal savings for a bus ticket to visit with Paul G. Allen; to discuss issues revolving around denial of REQUEST #1 part 2.2.
- 5) **\$22.00** from personal savings for a bus ticket to visit with Bill Gates; to discuss issues revolving around denial of REQUEST #1 part 2.2.

6) **\$22.00** from personal savings for a bus ticket to communicate, in person further private business plans with Fiduciary; to discuss issues revolving around denial of REQUEST #1 part 2.2.

7) **\$22.00** from personal savings for a bus ticket to visit with a investment banker; to discuss transfer of all savings into a plan regarding investment opportunities stated in this communication; to discuss issues revolving around denial of REQUEST #1 part 2.2.

8) **\$129.00** from personal savings account to take a train to visit with Apple CEO Steve Jobs in Cupertino California; to discuss issues revolving around denial of REQUEST #1 part 2.2.

9) **\$469.00** from personal savings account for plane ticket to visit with former senate majority leader and current non-executive chairman George Mitchell; to discuss issues revolving around denial of REQUEST #1 part 2.2. and how to approach Bruce Gagnon for future appointment as CEO for DISNEY in "Strategies for Alignment in the "Safe Operating Space Systems," world of entertainment for a Disneyland on the Moon by 2025 - this in the event of a N.A.S.A. contract with Disney through J.P.L.; and with a NAVAL reprisal of the service rendered by Jason Detrick© for and "**Honorable Discharge**," for reasons of complex intelligence constrains of service due to deficient policy in Nuclear Submarines Fleet and Office of Personal Management...further reprisal should include evaluation by the SECNAV to send Jason Detrick© to school at the U.S. Naval Academy to study policy models for future issues involved in the U.S. Naval Space Command contract functions with "Entertainment in Space Complex."

10) **\$22.00** a bus ticket to visit with David James in matters regarding REQUEST #1 part 2.2. and why there has yet to be a fax from the Washington state Department of Veteran's affairs threatening future business relations based on the secondary recipient of the "Office of Naval Intelligence," in the prospect of the application software for development by the "Office of Space Commercialization," in the event the CEO role for **MICROSOFT® and VULCAN. INC.** are, for a period of five years interchangeable to help in the business model developed by Jason Detrick© for MP-MARS© 50,000 member debentured web-contract for on-line paid gaming system and potentially partial property of the U.S. Navy, Disney Studios, Apple Computers and U.S.A. networks.

11) **\$18.00** from personal savings for certified mail to communicate with Bill Gates and Paul Allen in the development of information security strategies involved in complex functional interactive database models for on-line paid gaming for developmental robotic exploration of celestial bodies in a "Human to Mar's," initiative by 2014.

12) **\$22.00** from personal savings for a bus ticket to visit with Melvin Oleson; to discuss issues revolving around denial of REQUEST #1 part 2.2.

10) **€00.37 for postage required to mail a letter asking the President and Vice President of the U.S. to resign from office and withdraw troops from Iraq prior this election as it disrupts peace with progress for American pre-eminence in all aspects of future securities involved with information dynamics and space exploration for asset bases in the travel and communication industry; and potentially "National Energy Policy."**

11) **\$3,100 from personal savings for a plane flight** for expenses involved in visiting Eric Anderson of Space Adventures Ltd. in Arlington Va. for issues regarding my **previously engaged financial assessment** of the business plans for the "Art in Space Foundation©," by strategist, Lelung Cheung and Eric Anderson.

Request Seventeen;

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: In order to to visit with the lead administrator of N.A.S.A. in reflection of their involvement with Dr. Eligar Sadeh and his personal board membership involvement with the Mar's Society to insure that my work and efforts were not misconstrued to be property of N.A.S.A. It is further noted, that topics of communication in light of request are to insure; that never again is a D.O.D. constructed policy operations of the domestic authority of the "U.S. Space Command," to be influenced and abused by unsolicited and unreported implementation elements of congressional project allocation for a Mission to Mar's by 2014. THIS Will never again interfere in security investigations for crew members in training or not in training for the job of **Tactical Nuclear Weapon's Operator**. To insure this, I would suggest to the scenario planners that a BID PROCESS for

entertainment based "Safe Operating Space Systems," be instituted for the enclosed and mentioned names within this communication; primarily Disney Studios who would then donate those seats to my company in asset terms to back the conditions of my debentured web-contract; as "WE," together in co-production might be more responsible in managing such endeavors as an annual artist in space through competition. The further communication would focus on how RUSSIA is winning the privatized space battle with provisions for such ideas in planning through companies like Space Adventures Ltd.. in VIRGINIA. I might add, in conversion with the Administrator that I would be sure to manage the business plan aspect of the "Art in Space Foundation©," in a manner becoming my initial plans as a "LEAD, Event Planner," for the productions involved in the "Art in Space Foundation©," business plans while working closely with *Vulcan, CEO -Paul G. Allen or Vulcan CEO - Bill Gates* for future investment strategies involved in dynamic marketing for "**Safe Operating Space Systems©.**" *Including an annual report to Congress titled; Planning of investment strategies of interchangeable and cross platform information securities by the private space community for peaceful progress in the "entertainment and space complex."*

Request Eighteen:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: for "Money," needed for the printing of the 50,000 debentured bond certificates for "ASF©" that will, in conjunction with all State, Federal, and International laws divest 50,000 series A, debentured bonds within the second year, in the sum of \$23,200,000.00. Each bond is valued at 58 hours of internet research time donated to "ASF©," at 8 dollars an hour, from **registered bond holders**. Each bond initially is valued at: \$464.00 at 16% per centum (non-accrued) payable at maturity date five years after registration \$765.60 upon completion of "ASF©," sending an artist into outer space. Payment will be deferred, by option, at initial contract to the sustained development of the 50 year community dedicated to progress through peaceful exploration of space by way of; "Safe Operating Space System's," providers who compete with bid process for use of N.A.S.A facilities in agendas focused on a closed loop society dedicated to human imperatives in space.

1) This "CORE ELEMENT," of "Personal Business Strategies," is also related to request involved in (Request 12) The U.S. Government will be responsible for any lost revenue for this dynamic and legal form of financing an asset base through the unique use of a company backing a seat for an artist in space through time based donations for internet based work rendered over five years. It is then in the best interest of the potential liable party to create dynamic loss/gain scenarios based on the finances of Jason Dedrick's© personal financial savings maintained by the, Congressionally appointed, federally instructed, state managed fiduciary **SHARON LINDLEY**. The second to second loss of revenue will react with issues in sub-penny trading, relating to debentured web-contract that *require a response* from the V.A. Fiduciary to state the reason for the *Maximum/Minimum* limit available from savings, as in reflection of said enterprising due to potential loss of revenue in all scenarios created from liability in communications relating to the fiduciary role as appointed by Congress to the Federal and State V.A.. Both state managed assessment in information securities and federal assessment in information securities will be entitled roles of investigations into the multi-billion dollar lawsuit against the United States Government V.A. for abuse of powers in investigations controlling financial affairs of Jason C. Dedrick©. For further complexities involved in this difficult financial assessment of values relating to "CORE ELEMENT" of business plan strategies for the "Art in Space Foundation©."

Request Nineteen:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written

response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: to research an intercepted e-mail regarding Comcast and Disney made on Thursday, Jan 8. 2004 regarding Disneyland's Information unit responsible for Web-Cents as the following day it would appear that.....

Request Twenty:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: for research dollars needed to investigate the U.S. Army medical functions involved in a D.A.R.P.A. managed and National Space Biomedical Research Institute program working with N.A.S.A. to better understand fluid dynamics of the brain. The research to pay special attention to nuero-vestibular, inner ear correlations using memory ingrams and genetic markers. Also, to play close attention in investigations dealing with ferro-magnetic fields of mineral functions in bersoud sacs with disruptions caused by supine and non-supine and 360° seating in motion platforms. It is further hereafter reasonable to research with these dollars to the subconscious courier signals sent through derivative chemicals frequency operators of scopolamine based communication systems that threaten future political decision making by lead appointees to Senate who may have established links with mental health, the Army and John Kerry. Further, it is realized that investigations of these types are costly and may require the continued protection of Jason Dedrck© by the C.I.A. for reasons reflective of the **F. Murray** Incident and the ARMY involvement through similar **planned** manipulations of the U.S. political process. If further investigation leads to the remote and currently unlikely possibility of "foreign," interference in higher and lower memory functions in geographical cue sense through neurovestibular and electromagnetic field operations potentially maintained and or **sold** through Berkhaven National Laboratories it is suggested that all information regarding current Russian neuro-vestibular research done through the "Baknimour, Cosmodrome," and "**business**" operating in Virginia be immediately terminated by aggregating private sector involvement in space launches through N.A.S.A.. If it is perceived that multiple communications systems isolating muon potentials in high energy physics do exist and have established links to the total investigative case of Jason Dedrck© and are in fact managed through and not completely by; N.A.S.A. (**including its contract base; such as Ball Aerospace and BNL**) D.A.R.P.A., N.S.B.R.I., U.S. ARMY, and C.I.A. agents current or former with Russian space policy knowledge in neurovestibular communication systems working now or previously through **Virgina**, and current U.S. political candidates then it is suggested by this Investigative mind that a **temporary stop on all projects** including all maintained projects currently, that were begun and or **instituted or to be implemented** by **OKLAHOMA MENTORED**, former lead administrator of the C.I.A. be seized with hostile force and then forwarded to the **SECNAV** for review in the best roadmap of peace for future postulation in international affairs dealing with the World Health Organization and the policies derived from mental health legislation for manufacturing of pharmaceuticals containing "potentials," for American workforce disruptions. These investigations would also include N.A.S.A. centered, pathway observations on nuero vestibular research agendas in education programs and contract base non-profit or otherwise for profit located in **MASSACHUSETTS, TEXAS and COLORADO.**

This researcher **currently** involved in "Think Tank Operations," dedicated to problem solving in higher end tactical strategies of information warfare of **THE CONTRACTING PARTY: "BOEING**

AEROSPACE®, through "Psychological Warfare Training," in safe domestic atmospheres considered by most warfare strategist to be named "**Psy-Ops**," has concluded that "**Multiple**," layered analog heuristics are displayed in non-unilateral "Mental Warfare." Therefore, it is the opinion of this federally paid researcher upon admittance to the U.S. Naval Academy to conclude this investigation's work involved in strategies for information assemblage for presidential decision making in future; multi-polar, multi-national scenario planning. Also, it is stated that future investigations involved in domestic operations of "Psychological Warfare Training," be made publicly aware for reason involved and required by American involvement for problem solving strategies to maintain safe homes in America. The future dynamic elements required to maintain American preeminence in all facets of decision making, space related issues, require the American public to maintain maximum information required for decision making in keeping the democratic process continued in future elections. These types of policy studies and development strategies will be required in future relationships in private sector involving the U.S. Naval Space Command and the U.S Submarine Community.

Request Twenty-One:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: to research how to request assistance from the X.X.X. and the NAVY and that all financial affairs and debts involved in personal fiances of Jason Detrick© for periods beginning Dec 98' through current be resolved in light of service rendered in dedicated and government approved "Think Tank Operations." This including; back-pay with regular rate advancements from February 14th 2003, move expenses to Maryland for school sessions beginning in Jan, 2005. This research included to gain the legal assistance from the U.S. Navy for licensing options in business plan through Microsoft© and Vulcan Inc.

Request Twenty-Two:

I respectfully request a hand written *response* for my standard request amount of \$2,874.00, less money from today's request from Erin Alvarez, from my personal savings for request with the "Maximum/Minimum," allowable amount for this request and others as concatenated to be included in written response from Sharon Lindley, as seen and viewed through a unsecured fax transmission "by/to," Carol Seaman Smith, federally appointed field investigator for request added to my weekly expenses and withdrawn from personal savings for minimum response requirements please review standard response sheet in this request in order to-it is expected though to be rationalized that if \$100.00 dollars for food and communication expenses today will equal \$200,000.00 tomorrow that this be a loss to be accepted by the Department of Veteran's Affairs for unwise management of personal savings account as I will find a way to survive-this request is for: For money from personal savings for food to eat as I have no money due to; expenses not repaid for recent fax money request, household cleaning supplies to remove mice droppings, water buckets for water to flush toilet, these expenses total more than \$100.00 from weekly allowance not received for the previous week. It is further mentioned that due to the frustrations involved in unsecured communications that using the unsecured phone line in these responses will not be acceptable. It is further stated that the responses given in light of issues in this request on Friday evening at 5:46 P.M. in which Sharon Lindley hung up for matters regarding the request and issues relating to personal financial decision making have decided to utilize a third person liaison to communicate through in order to receive funds for; FOOD, WATER, AND HEALTH. Please communicate to Erin Alvarez, as per her fax request on my behalf, for issues regarding these complicated request on this day the; 21st of September, 2004 as I will not respond to phone calls not managed appropriately. I have not eaten a full meal in three days. (NOTE: I have allowed Erin Jo Alvarez to do "Simple," communicating, on this day, on my behalf to the Washington State Department of Veteran's Affairs, as it was per her involvement two weeks ago that gave Sharon White the realization of what is occurring at the Washington State Department of Veteran's Affairs in behavior with clients who are 100% disabled and Honorably release Veteran's of War. This realization by Federal employee making

decisions for my finances allowed for services required, and appointed in the care of Washington state management through Congress, to be rendered in order to allow me to eat after six weeks of not receiving weekly allowance. It is further noted that limitations of communication by Erin Alvarez are "only," for issues not deemed appropriate or important by standards of the Washington state Department of Veteran's affairs; such as food, water, and Health related purchases. This "required," form of communication is not a consent of "Power of Attorney," or loss of ownership in any elements of private "Business Communication Strategies," as Erin Alvarez has not seen nor will she ever see this or previous fax or hear about topics contained in this or previous fax due to "National Security Issues," potentially involved in the nature of contents in this fax.)

Future topics to "**future communication recipients***," include issues regarding information and energy policy as a means to better understand the dynamics of the U.S. Constitution in a Democracy devoted to innovation and that can do attitude. This requires research expenses.

Energy Example One: Topics in future communications include such Issues as; 51 States vs. 49 states are we divided or are we growing? The Texas hydrogen fuel cell incentive/subsidy program for West Texas, a plan to balance power in the resource based electoral college from a California/Oregon/Washington/B.C./Alaska PIPELINE Perspective and its effect in the entertainment industry.

Information Example One: A special note of great consideration-Due to special information obtained at the John Fitzgerald Kennedy Library while a crew member of the U.S.S. Constitution, Executive Order 12958 may potentially be re-instated to gather personal business plan model held by the Ventura, California county courts as received by Roger Bouley as per certified mail letter rr814201980us, mailed on Feb 13, 2004. This "communication," in reference was mailed in reflection of the sixth amendment breach of consumer trust by Kinko's© Computer "**Information Handling**," user agreement in relationship to the proposal for the "Art In Space Foundation©," after the change of ownership to Fed-ex. The possible advantages of this scenario case involve the future congressional approval for a aggressive "state centered," post office bill that manages internet content date stamping for annual fee that legally validates content ownership through on-line post office registry. This same service could compete with Fed-ex and its development of information securities by instituting a program for validation certificates of content date stamping with seamless insertion into the U.S. Library of Congress, for patents, trademarks and copyrighting material in the most competitive way while maintaining U.S. preeminence in preventing content fraud and potentially federally maintained server liability of state managed information terminals. However, it would be recommended that a initial private software manufacturer devoted to on-line patent based approaches to science fiction writing be given assistance through the; State of Washington, California or Massachusetts. Possibly even with the help of Sir Author C. Clark and the Institute for Cooperation Space that potentially could develop with the "Art in Space Foundation©," on-line science fiction writing software with state managed test of Post Office Registry Software.

DISCLAIMER: This communication is private and confidential and may only be forwarded to the appropriate decision makers of Jason Dedrick's© V.A. funds and only for issues/requests not "threatening," strategic business planning by Jason Dedrick© or potential affiliates. This communication **will** also be stored in the personal file of Jason Dedrick© and may later be used in an investigation of; Jason Dedrick© (with proper licensing fees,) the employees of the Federal V.A. in Washington State, the Governor's Office in Washington State, Boeing Aerospace, xxxxxxxxxxxxxx, Vulcan, Inc., the U.S. Space Command and it's potential use of "planted," or "non-planted," psychologically or not psychologically impaired individuals into the U.S. XXXX to courier information for tier level 4 business planners who may not like the development of proxies in trading securities information for continued competitive business economies not threatened by "Abused National Security Protocol."

The forecast of "Future Communication Recipients*," is a strategic business threat as elements of "Information Example One," may be relevant to this financial request for vehicle due to trade relationship and _____.

Note; signed non-disclosure agreement with Dr. Margaret Bone the V.A. psychologist does not encapsulate agreements made by V.A. for privacy and confidentiality with personal business plans in continued efforts to manage financial efforts to gain "Resource Acquisition."

All money in savings management by the appointed Fiduciary by Congress is property of Jason Dedrick© and reflect money withheld that threatens investment opportunities showcased in this communications.

Amendment 1* Ratified effective Dec 15, 1791

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; **or the right of the people peacefully to assemble, and to petition the government for a redress of grievances:** As is maintained in all aspects of the business proposal for the "Art in Space Foundation©."

It will be understood that I have no money to purchase food until I have a response for all issues related in this communication; as my mental health and financial issues are dynamically related due to, congressionally appointed fiduciary who hangs up on me in request not managed by the state managed V.A. fiduciary.
